The charm of wood with the durability of composite cement

✓ 10 years colour guarantee  
 ✓ Low maintenance  
 ✓ Easy installation

## Calliclad is a decorative composite cement plank of high quality for multi purpose cladding uses.

For cladding and transforming brick walls, garden sheds, garden walls, extensions, gables, eaves and facades. For DIY projects in refurbishment or new build. It can also be used on curved applications.

### Pro's

Calliclad has many advantages as can be seen below. With its easy installation, 10 year colour guarantee and with virtually no maintenance - Calliclad easily stands the test of time.

-  ✓ easy installation
-  ✓ low maintenance
-  ✓ easy to transport
-  ✓ non-flammable
-  ✓ water resistant
-  ✓ rot-proof
-  ✓ UV resistant
-  ✓ 10 year colour guarantee

### Dimensions

Due to their light weight (4kg/plank) and manageable dimensions Calliclad planks can be easily installed. One pack contains 6 planks allowing to cover 1,68m<sup>2</sup>.

### Colors

Calliclad is available in different colors and with its 10 year color guarantee there is no need to repaint.

**Ice White**  
 (cal1 = Ral 9003)

**Platinum Grey**  
 (cal5 = Ral 7047)

**Ivory White**  
 (cal7 = Ral 9001)

**Slate Grey**  
 (cal18 = Ral 7024).

The Calliclad can also be painted.

### Easy to install in 7 steps

The installation of Calliclad is both quick and easy with the planks screwed onto vertical wooden batons.

Universal corner profiles are also available in matching colors to give your DIY project that perfect finish.

- Step 1:** Fit the supporting structure.
- Step 2:** Fix the sealing profile.
- Step 3:** Staple joint tape onto the battens.
- Step 4:** Fix the aluminum Calliclad finishing profile.
- Step 5:** Fix the starting batten.
- Step 6:** Measure and cut the planks.
- Step 7:** Fix the planks.

You will find more installation information on our website [www.callibo.com](http://www.callibo.com).
